EXPERIENCE

Software Development Intern

Jan 2026 – Mar 2026

Cognifyz Technologies · Remote

- › Completed a structured Python development program, building 6 real-world mini-applications from scratch covering diverse software engineering concepts.
- › Designed and implemented CRUD-based task management systems with both in-memory and file persistence approaches.
- › Applied web scraping techniques using BeautifulSoup and Requests to retrieve and parse data from live websites.
- › Demonstrated proficiency in core Python concepts: loops, functions, file handling, exception management, and third-party library integration.

PROJECTS

Fair Study AI — AI-Powered Learning Assistant

Python · Streamlit · Gemini 2.5 Flash · Groq / LLaMA · Render · GitHub

- › Built & deployed an adaptive AI platform serving 3 learning levels (Beginner, Intermediate, Advanced) with real-time explanations via 2 integrated AI APIs — Gemini 2.5 Flash & LLaMA.
- › Achieved sub-2s AI response time; deployed on Render with GitHub CI/CD — aligned with UN SDG Goal 4 (Quality Education). Live: fair-study-ai-1.onrender.com

Event Management AI Agent

Google ADK · Gemini 2.0 Flash · Imagen 3 · Firebase Firestore · Gradio · Hugging Face

- › Built a full-stack AI Agent using Google ADK & Gemini 2.0 Flash — autonomously managing tasks, speakers, sessions, and generating on-demand summaries across 5+ event features.
- › Integrated Google Imagen 3 for AI image generation; 100% persistent chat history via Firebase; deployed on Hugging Face Spaces at zero infrastructure cost.

Python Fundamentals Project Suite

Python · BeautifulSoup · Requests

- › Shipped 6 production-ready apps covering game logic, CRUD systems, file I/O persistence, and live web scraping pipeline — 0 external databases, 100% Python built-in I/O.

EDUCATION

B.E. Computer Science & Engineering

Expected July 2028

GKM College of Engineering and Technology · Chennai, Tamil Nadu

SKILLS

AI / ML	Scikit-learn (Beginner) · Gemini API · Groq API · AI APIs · Prompt Engineering
Languages	Python · HTML / CSS
Frameworks & Tools	Streamlit · BeautifulSoup · Requests · Render · Firebase
Cloud & Platforms	Google Cloud · Azure ML · NVIDIA

CERTIFICATIONS

Gemini Enterprise Agent Ready — Google

Gen AI in Practice — Sololearn

Google Skills Boost — 5 Skill Badges

Intro to AI Agents · Agent Fundamentals · Enterprise Agents · Gemini App Dev · Intro to Google Workspace

Microsoft Learn

Intro to Gen AI & Agents · Introduction to AI Concepts · Get Started with ML in Azure

EVENTS & PROGRAMS

- Gen AI Academy APAC Edition — ADK & Gemini Training | 2025
- Build with AI + ADK Event — SQ1 | 2026
- Google Cloud Technical Series APAC | 2026
- Beyond AI: Google AI Event — Saveetha Engineering College | 2026
- Google I/O 2026 & Google Next '26 — Registered Attendee
- Google Cloud Security Summit APAC | 2025
- API Architects · Hello Web3 · Flutter Sprint — VIT Chennai | 2025
- Tata Crucible Challenge — Level 1 Participant | 2025

COMMUNITY

- Founder — TierBreaker Developer Community (Discord)
- GDG Chennai Member
- Google Cloud & NVIDIA Developer Community
- Firebase Studio Developer Community
- Google Maps Platform Innovator
- Code Wiki Early Access Member
